

Embrace Project Fact Sheet

Overview

Embrace Multicultural Mental Health (the Embrace Project) provides a national focus on mental health and suicide prevention for people from culturally and linguistically diverse (CALD) backgrounds. It works towards an equitable mental health system which reflects and responds well to the needs of Australia's multicultural population.

Stakeholder engagement

Mental Health Australia is partnering with the Federation of Ethnic Communities' Councils of Australia (FECCA), and the National Ethnic Disability Alliance (NEDA) to deliver the project. The project is informed by a Embrace Lived Experience Group and a Stakeholder Group. It is funded by the Australian Government Department of Health.

Project activities

Key activities for the Embrace Project include:

- » Promoting and supporting organisations and services across Australia to implement the Framework for Mental Health in Multicultural Australia
- » Maintaining and sharing resources through the Embrace Project website
- » Communicating and engaging with CALD mental health consumers and carers, CALD communities and the mental health sector
- » Project governance and planning
